Introduction to Hair Loss Programs

Images Unlimited, an affiliate of HLCC, provides only the highest quality hair loss treatments and hair loss products that achieve results. Just a few of the products are Laser Combs, 170 laser diode units, and our hair loss treatment products that have been developed by physicians. Our 24+ years of experience in treating hair loss has shown that our clients receive best results when taking a Multi-Therapeutic Approach to hair loss treatment.

If you are suffering from hair loss, we are pleased to provide any of the hair loss treatment programs listed below. Our Multi-Therapeutic Approach Hair Loss Treatment Program is designed to suit most hair loss situations based on your individual needs.

Images Unlimited's Multi-Therapeutic Approach includes:

- The Best Laser Therapy
- All Natural DHT Blockers
- Complete Hair Nutrition
- Improving the scalp environment
- Minoxidil – enhanced 6 ways by adding 5% saw palmetto (a potent DHT blocker) or using **MGT** (Maximum Growth Therapy) which is the best all natural topical treatment with 11 DHT blockers.

Choose your Individualized Hair Loss Treatment Plan TODAY...Hair loss only gets worse if you wait

We encourage you to contact www.information@imagesunlimited.org for a free consultation with one of our hair loss treatment counselors who will help you determine the best hair loss products and hair loss treatment program that will address your specific hair loss condition.

Browse through our hair loss products below to choose a hair loss treatment that will suit your needs.

Use these Proven Key Tools to Combat Hair Loss

- ✍ **Laser 93%-100% Success with one diode** – we use 110-160 diodes
- ✍ **Minoxidil 85% Success** – we make it better 6 ways
- ✍ **Blocking DHT 90% Success** – We offer all natural and or prescription
- ✍ **Hair Nutrition Clinically Proven** – to make hair fuller and thicker
- ✍ **Scalp Hygiene Clinically Proven** - to make hair fuller and thicker

Home Treatment Options

This is a great option for clients outside the area or those whose busy schedule does not allow them to commit to weekly office visits.

Hand Held Lasers – offer variety of cost effective models to choose from.

Hand Held Laser Brush - a great add-on to any hair wellness program, as well as for those who have gone through treatment and only need to maintain great results.

The Ultimate 75 and the New and Improved Ultimate 100 Laser Diode – provides the maximum effects of laser therapy. This is an opportunity to get the maximum laser treatment in the privacy and comfort of your own home and on your schedule.

Treatment Instructions for Your Hair Loss Program

You will find your new hair loss control system easy to use and is conveniently packaged for travel. All case studies were done shampooing the hair two to three times a week to prove effective. Our programs are about remaining consistent with your program, not about the quantity of product usage. You will quickly adapt to finding a schedule that suits your lifestyle. Use the tips below noting the amount of product stated for usage.

Congratulations on taking control of your hair loss.

When Showering in the Morning

1. Scalp Therapy: Place 8-10 drops of HLCC Scalp Therapy all over scalp approx. 5-10 minutes before showering/shampooing. Rub gently into scalp and let sit. (This is great for dry, itchy scalp. Leave on longer to treat dandruff or dermatitis.)
2. HLCC Scripts Shampoo: Use a quarter size portion. Wash hair and rinse. Repeat if needed.
3. Vitamin Plus Conditioner: Use as a daily or deep conditioning treatment. Put on scalp 1st, massage in and then pull through to ends. Allow to sit for 3-5 minutes for daily, or for intense treatment, put on plastic cap and process under warm towel 20 minutes.
4. The COMPLETE or AA Plus: Take 2 X per day, one at breakfast and one at dinner (every 12 hours) for best results, should be taken w/ food.
5. Minoxidil w/SAW Palmetto: Use Dropper applicator to measure amount and apply directly to dry scalp every morning, and rub in gently. Draw one cc/ml (up to the 1.00 mark). Leave on a minimum of 6 hours before shampooing. Can be used am/pm on front hairline for better results. If this is done, you will need to purchase more often. Wash hands after massaging in Minoxidil.
6. Maximum Growth Therapy: May be used alone as part of the All Natural program or in conjunction with the Complete w/SAW Minoxidil program for enhanced results, should be applied on dry scalp. Use fingertips to apply along partings covering troubled areas. Once fully applied, use finger tips to gently massage into scalp. If using after the Minoxidil, allow Minoxidil to dry before applying MGT. Wash hands after massaging in Maximum Growth Therapy.
7. Use laser, in clinic or at home as directed.

When Showering at Night

1. Scalp Therapy: Place 8-10 drops of HLCC Scalp Therapy all over scalp approx. 20-30 minutes before showering/shampooing. Rub gently into scalp and let sit. (This is great for dry, itchy scalp. Leave on longer to treat dandruff or dermatitis.)

2. HLCC Scripts Shampoo: Use a quarter size portion. Wash hair and rinse. Repeat if needed.
3. Vitamin Plus Conditioner: Use as a daily or deep conditioning treatment. Put on scalp 1st, massage in and then pull through to ends. Allow to sit for 3-5 minutes for daily, or for intense treatment, put on plastic cap and process under warm towel 20-30 minutes.
4. Minoxidil w/SAW Palmetto: Use Dropper applicator to measure amount and apply directly to dry scalp every night, and rub in gently. Draw one cc/ml (up to the 1.00 mark). Leave on a minimum of 6 hours before shampooing. Can be used am/pm on front hairline for better results. If this is done, you will need to purchase more often. Wash hands after massaging in Minoxidil.
5. Maximum Growth Therapy: May be used alone as part of the All Natural program or in conjunction with the Complete w/SAW Minoxidil program for enhanced results, should be put on dry scalp. Use fingertips to apply along partings covering troubled areas. Once fully applied, use finger tips to gently massage into scalp. If using after the Minoxidil, allow Minoxidil to dry before applying MGT. Wash hands after massaging in Maximum Growth Therapy.
6. The COMPLETE or AA Plus: Take 2 X per day, one at breakfast and one at dinner (every 12 hours) for best results, should be taken w/ food.
7. Use laser, in clinic or at home as directed.

[Additional recommendations for those suffering from Hair Loss:](#)

1. Watch your intake of Caffeine - this prevents the uptake of B Vitamins which are essential for hair growth. No more than 2 servings per day.
2. Nutrition is extremely important - eat plenty of protein, fruits and vegetables.
3. Drink plenty of water.
4. Low Iron will interfere with treatment. Be sure your Iron levels are normal. If low see your Doctor for an Iron Supplement.
5. Watch the intake of Vitamin A - too much in your diet can cause Hair Loss.
6. Avoid pulling or tugging on your hair when it is wet. Blot Dry with a towel, rather than rub. Avoid hair dryer high heat settings.
7. Find ways to reduce stress: Exercise, Meditation, and Reading.
8. Allow yourself the freedom to not stress over your Hair Loss issues.

CompleteLash™

Clinically Proven, Up to 64% Fuller Looking Lashes* Enjoy your longer, fuller, thicker and darker eyelashes in only a few weeks! You will be amazed by the incredible new volume and strength... sparse eyelashes and eyebrows are now a thing of the past. Triple action CompleteLash combines the best lash accelerators with nano-peptides and botanicals for unmatched results*. You will have longer lashes or fuller eyebrows naturally! This breakthrough technology will give you amazing eyelashes and eyebrows! Its safe formula will help you improve your eyelashes and eyebrows in length, fullness, thickness and darkness in only 4 to 6 weeks. CompleteLash was formulated by physicians. It has been clinically tested and ophthalmology safety tested by an independent laboratory; proven to be a very safe and effective cosmetic lash accelerator.

Stimulate Your Natural Eyelash & Eyebrow Potential Increases length, thickness and fullness with noticeable results in as little as 4 to 6 weeks. See dramatic results with your first tube. 96% of users declared it very effective. ****64% Longer & Thicker Lashes**** CompleteLash utilizes new revolutionary breakthrough technology. Special peptides, vitamins and botanicals condition and improve flexibility for fuller and thicker eyelashes and eyebrows. ***64% Darker, Fuller & Stronger**** CompleteLash high performance serum will prevent breakage of your lashes and help grow back eyelashes over time. This dye-free and paraben-free formula will make all shades of eyelashes and brows darker while increasing fullness.

****Based on multiple independent and clinical studies.***

Benefits

- ✦ **Helps your eyelashes reach their full potential in LENGTH and FULLNESS**
- ✦ **THICKENS** eyelashes
- ✦ **DARKENS** your eyelashes
- ✦ **Makes your eyebrows THICKER and FULLER**
- ✦ **As safe as it is effective**
- ✦ **Used by thousands of satisfied customers around the world**
- ✦ **96% of women declared fuller & thicker lashes! 92% declared longer lashes!***

How to Use

Remove makeup with a mild soap or cleanser. Apply CompleteLash nightly just before bed time, as you would liquid eyeliner, with a single stroke at the base of the upper and lower lash lines. Do not re-dip. The amount of fluid on the brush is enough for the upper and lower lashes on both eyes. Do not apply too close to the edge of the eyelid. Avoid getting excess fluid into the eye. If CompleteLash does get into the eye, rinse immediately with sufficient water. Repeat if necessary. Always apply CompleteLash as directed and with the utmost care. If irritation occurs, discontinue use.

FAQ (Frequently Asked Questions)

Q: How long does a bottle of CompleteLash last?

A: If used once a day, it will last up to 4 months.

Q: How long will it be until I see a difference with CompleteLash?

A: Younger clients tend to see results within 3 to 5 weeks. Older clients may take up to 6 to 10 weeks, with all clients to date reporting positive results.

Q: Is CompleteLash safe to use?

A: Yes. In our clinical study, we did not find any adverse reactions. It is considered to be very safe. As with any cosmetic product, some people may be allergic to one or more of the ingredients. If you experience any allergic reaction, discontinue use.

Q: Can I use CompleteLash with my contact lenses?

A: Yes. It is safe to use with contact lenses.

Q: Does CompleteLash also work on my eyebrows?

A: Yes. Clinical trials have shown positive results on both eyelashes and eyebrows.

Q: Will I see faster results if I use CompleteLash twice a day?

A: We have clients who have used CompleteLash twice a day. They report faster results.

Q: Can I also use CompleteLash on my lower eyelashes?

A: Yes. Be careful not apply too close to the edges, as it is easier to migrate into the eye.

Ingredients

| | |
|-------------------------------|---|
| Nano Peptides | Helps rejuvenate and strengthen fragile eyelashes and eyebrows |
| Panthenol (Vitamin B5) | Promotes longer lasting eyelashes and brows by making lashes more flexible |
| Palmitoyl-Hexapeptide 11 | Gives your eyelashes and brows extra shine with a healthy looking glow |
| Palmitoyl-Pentapeptide 4 | Reinforces and strengthens eyelashes and brows |
| Amino Acids | Natural antioxidants protect hair and follicles from environmental damage. Promotes skin repair |
| Prostaglandin L.C. | Lash Accelerator and fatty acid derivative helps follicles achieve their fullest potential |
| Niacinamide | Aids in the prevention of skin irritation and inflammation |
| Tocopheryl-Vitamin E | Stimulates hydration. Helps eyelashes and brows appear shiny and strong |
| Hydrolyzed Glycosaminoglycans | Promotes healthy follicles, softens brittle lashes and brows. Improves elasticity |
| Sodium Hyaluronate | Aids in hydration. Helps lashes and brows to appear shiny and strong |
| Chamomilla Recutita | A powerful flower extract soothes the sensitive skin around the eyes |
| Ginseng Root | This extract increases micro-circulation |
| Bearberry Leaf Extract | Contains special soothing tissue repairing properties |
| Grape Seed Extract | A natural antioxidant to help eliminate and prevent free radical damage |
| Methylamido Dihydro | Helps eyelash and brow follicles to reach their full potential |
| Vitamin C | Strong natural antioxidant for skin repair and protection |
| Vitamin A Retinol | Establishes normal cell function around the sensitive skin of the eye |
| Chamomilla Flower Extract | Prevents redness. Calms and soothes the skin |

Scalp Saver™

Full Spectrum UVA/UVB Sun Protection

Sometimes wearing a hat is just not an option! Now you can protect your scalp including where you part your hair from the harmful effects of the sun without messing up your hairstyle, all year round. New Scalp Saver SPF 46 sunscreen was developed by Hair Loss Control Clinic just for the delicate skin of your scalp. Scalp Saver sprays on white to ensure complete coverage before it dries clear for invisible protection, without ruining your hairstyle! If you have fine or thinning hair, a greasy sunscreen will weigh down your hair and show more scalp. Scalp Saver is a natural, zinc-based formulation that is light and silky with invisible coverage.

Reduce the Risk of Skin Cancer: Scalp Saver will reduce the risk of skin cancer and early skin aging if used as directed with other sun protection measures. Sun exposure adds up day after day, all year round. It occurs whenever you are outdoors and not just on a day at the beach. Scalp Saver contains transparent zinc oxide and octinoxate, two of the most powerful barriers to the sun. Zinc oxide is the top rated sunscreen ingredient that offers the biggest spectrum of any protective ingredient, providing a physical barrier to harmful rays. Scalp Saver offers a high SPF sun protection factor of 46.

Dermatologist Tested/Fragrance Free: Scalp Saver can be used on sensitive skin as it is free of fragrances, parabens, colorants and sulfates. Scalp Saver is dermatologist tested, non-comedogenic and is cruelty-free. This special formula is very water and sweat resistant, even in extreme conditions. It forms a barrier of protection, staying on during intense physical activity in and out of the water. Scalp Saver provides fast and convenient sun protection for on-the-go adults and children, making it easy to "save your scalp!"

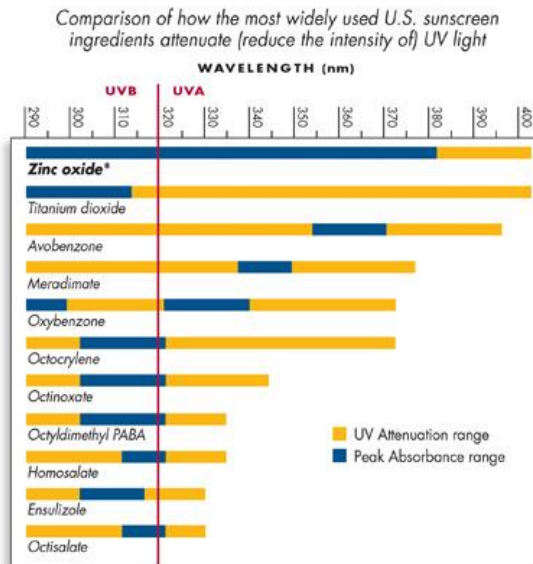

For Men: The top and back of your head is the hardest area to see and the easiest to get burned. Now you can protect your scalp without having to wear a hat, especially during sports or any outdoor activities.

For Women: Many women have hair that thins more noticeably at the parting of their hairstyle. Now you will be able to protect your part from sunburn with Scalp Saver. You can have full spectrum sun *protection*, without ruining your hairstyle.

For Kids: Scalp Saver won't run or drip into eyes and is perfect for kids. It offers great protection with very safe and gentle support without harmful ingredients. Kids love to watch it spray on white and then magically turn clear to protect them invisibly!

Benefits

- Will reduce the risk of skin cancer and early skin aging if used as directed with other sun protection measures.
- Protects the scalp and part from sunburn.
- Great for fine and thinning hair.
- Shaved heads will now get the best protection possible.
- SPF 46 - UVA/UVB Protection.
- Transparent zinc oxide and octinoxate screen harmful UVA and UVB rays.
- Transparent zinc oxide is the top rated sunscreen ingredient. See the chart below.
- Sprays on white to ensure complete coverage and dries clear for invisible protection.
- Water and sweat resistant. Won't drip or run into your eyes.
- Stays on during intense physical activity, both in and out of the water.
- Protects even in extreme environmental conditions.
- Dermatologist tested and cruelty-free. No parabens, sulfates, fragrances or colorants.
- Non-comedogenic; will not clog pores.

Data provided by PSG Beauty & Grooming

Uses:

- ✦ Helps prevent sunburn.
- ✦ Provides true broad spectrum UVA/UVB protection.
- ✦ Very water-resistant spray sunscreen provides fast and easy all body coverage.
- ✦ Apply 30 minutes before sun exposure
- ✦ SHAKE WELL before spraying.
- ✦ Spray 4" from skin, applying generously and evenly. Then, gently rub in.
- ✦ Reapply every 2 to 3 hours to maintain the best protection.

Warnings:

- ✦ For external use only.
- ✦ Avoid direct contact with the eyes.
- ✦ Discontinue use if signs of irritation appear.
- ✦ Consult your physician for children under 6 months of age.
- ✦ Keep this and all drugs out of the reach of children. If swallowed, get medical help or contact a Poison Control Center immediately.

Drug Facts

Complete Saw Hair Loss Treatment Program

The HLCC Complete Saw Hair Loss Treatment Program is the most common program suggested for both men and women suffering from hair loss without using a prescription. Developed by our doctors, this program utilizes a multi-therapeutic approach with products for good scalp hygiene, good hair nutrition, inhibiting DHT (the most common cause of hair loss) and has been found to be even more effective when combined with low level laser therapy.

HLCC Scripts Complete

The most potent DHT inhibitor starting with 500 mg of saw palmetto extract, with an additional 690mg of HLCC's proprietary formula for a total of 8 DHT inhibitors, a complete hair nutritional and ingredients proven to re-grow hair in 8 studies - so unique it's patented. HLCC Scripts.

5% Minoxidil w/ 5% Saw

For years, HLCC clients have found that moving from 5% Minoxidil in Carrier to 5% Minoxidil w/ 5% Saw Palmetto provides much better results. Formerly, this product required a prescription and was only available through our Doctors. HLCC proudly announces that this unique product is now available without a prescription.

Scalp Therapy

Superior, proven scalp therapy designed to dissolve sebum build-up, enabling the penetration of Minoxidil or other topical growth stimulators.

DHT Inhibiting Bio-Therapy Shampoo

With 11 DHT inhibitors to stop DHT topically, Bio-Therapy Shampoo gently cleans your hair without the harsh chemicals found in 98% of shampoos (DEA & Sodium Laurel Sulfate). Also very important when using Low Level Laser Therapy, as DEA & SLS have been known to create a barrier, blocking the laser light from penetrating the scalp (similar to sunbathing w/ sunscreen)

The All Natural Complete Hair Loss Treatment Program

The All Natural Complete Hair Loss Treatment Program is the most common program suggested for both men and women suffering from hair loss. Developed by our doctors, this program utilizes a multi-therapeutic approach with products for good scalp hygiene, good hair nutrition, inhibiting DHT (the most common cause of hair loss) and has been found to be even more effective when combined with low level laser therapy.

HLCC Scripts Complete

The most potent DHT inhibitor starting with 500 mg of saw palmetto extract, with an additional 690mg of HLCC's proprietary formula for a total of 8 DHT inhibitors, a complete hair nutritional and ingredients proven to re-grow hair in 8 studies - so unique it's patented

Maximum Growth Therapy (MGT)

A unique, all natural alternative to Minoxidil, MGT was designed specifically to inhibit DHT and provide the maximum amount of growth nutrients, possible, in a topical, all natural product. MGT provides 11 topical DHT inhibitors, including Saw Palmetto, Beta Sitosterol, Pygeum Bark Extract, Stinging Nettles Extract, Alpha Linolenic Acid, Gamma Linolenic Acid, Linseed Extract, Borage Oil, Green Tea Extract, Pumpkin Seed Extract and Evening Primrose Extract.

Scalp Therapy

Superior, proven scalp therapy designed to dissolve sebum build-up, enabling the penetration of Minoxidil or other topical growth stimulators.

DHT Inhibiting Bio-Therapy Shampoo

SLS & DEA Free, now with 11 added topical DHT inhibitors to clean and inhibit DHT in your hair follicles.

Comprehensive Complete Program

HLCC has found that the more someone does in conjunction with laser, the better their results will be. The Comprehensive Program brings together all the best products including FDA approved ones, with the latest research from the US, Europe and Canada.

The Comprehensive Program consists of:

Complete DHT Inhibitor & Hair Nutritional The most powerful herbal DHT inhibitors and hair nutritional, designed to significantly inhibit DHT (the most common cause of hair loss), provide complete hair nutrition, as well as provide all the active ingredients of Viviscal.

5% Minoxidil w Carrier Lotion Significantly improved delivery system of Minoxidil (FDA approved).

HLCC Scalp Therapy Improves the scalp environment, by dissolving sebum build-up, enabling the penetration of Minoxidil or other topical.

SLS & DEA Free Shampoo A specially formulated hair loss shampoo without sodium laurel sulfate and DEA.

HLCC Topical Nutrients Coenzyme A Proven Nutrient "Hair Growth" Delivery System.

Vitamin Plus Conditioning Treatment Specially formulated hair loss conditioner rich in vitamins, amino acids and minerals.

Broken & Damaged Hair Treatment Program

The Hair Strengthening program was designed for people who have damaged their hair with processing (color treating, excessive heat, perms, etc). This program helps strengthen the hair that you have, and encourages faster growth.

HLCC Scripts Complete

The most potent DHT inhibitor starting with 500 mg of saw palmetto extract, with an additional 690mg of HLCC's proprietary formula for a total of 8 DHT inhibitors. This is a complete hair nutritional program with ingredients proven to re-grow hair in 8 studies. So unique it has been patented.

HLCC Scalp Therapy

Superior, proven scalp therapy designed to dissolve sebum build-up, enabling the penetration of Minoxidil or other topical growth stimulators.

DHT Inhibiting Shampoo

A specially formulated, gentle, non-irritating hair loss shampoo without sodium laurel sulfate and DEA.

Vitamin Plus Conditioning Treatment

Restores moisture to your hair and scalp, through its action as a moisturizer and conditioner. It provides over 25 essential vitamins, minerals and amino acids to the hair shaft, adding fullness and shine to all hair types.

Maximum Growth Therapy (MGT)

Provides 11 of the best topical DHT inhibitors, plus proven hair vitamins and vasodilators to provide the best opportunity for thick healthy hair. MGT is designed to help stop hair loss using DHT inhibitors and by adding nutrients. MGT provides hair with protein building nutrients and B vitamins directly to the hair follicle to help with hair growth. It is scientifically proven to stimulate new hair growth, due in large part to its high percentage of panthenol and cysteine, a keratin protein which is the basic protein found in human hair. MGT has a proven vasodilator which improves blood flow assisting the vitamins in revitalizing the condition of the hair and

scalp. It also relieves the scalp of dryness and encourages thick healthy hair. MGT is used instead of enhanced Minoxidil for all Natural programs. It strengthens hair damaged by chemicals and helps with scalp irritation. The MGT active DHT inhibiting ingredients include Saw Palmetto, Beta Sitosterol, Pygeum Bark Extract, Stinging Nettles Extract, Alpha Linolenic Acid, Gamma Linolenic Acid, Linseed Extract, Borage Oil, Green Tea Extract, Pumpkin Seed Extract and Evening Primrose Extract.

Alopecia Areata Hair Loss Treatment Program

Alopecia Areata is a challenging condition. Despite this, HLCC's Alopecia Areata Treatment Program has had great success. Most people come to us after the Alopecia Areata Hair Loss Treatment Program their doctor recommended didn't work. We have a greater than 50% success rate with these difficult Alopecia Areata cases. Of course each case is unique, but we haven't seen better results anywhere with these types of cases.

The first step to improving your hair is to utilize products free from harmful chemicals (like Sodium Laurel Sulfate and Cocamide DEA (contains alcohol and some claim may be cancer causing ingredients). DHT Inhibitors (anti-androgens) like HLCC Scripts Complete contains a group of ingredients known to regrow hair in 8 clinical studies.

Laser treatments, either in clinic, with a home clinic laser, or a hand held laser comb is normally part of the most effective programs.

The Alopecia Hair Loss Treatment Program includes the most powerful herbal DHT inhibitor & hair nutrition, a proven nutrient "Hair Growth" delivery system, a specially formulated hair loss shampoo without SLS & DEA, and a proven scalp therapy. In addition Maximum Growth Therapy has proven to restore healthy hair.

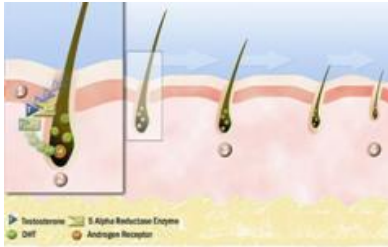

Together, with help from our medical staff, no one gives better advice and cares more when it comes to treating Alopecia Areata.

HLCC™ Scripts Complete

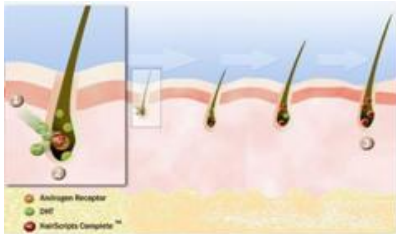

HLCC™ Scripts Complete was clinically developed to help grow your hair to look stronger, fuller, thicker and look better for both men and women with hair loss of all ethnicities. Clinically and Laboratory Proven, Physician Recommended HLCC™ Scripts Complete inhibits DHT (which attacks your hair and causes most hair loss in men and women) with an unsurpassed formulation of anti-androgenetic (DHT inhibiting) agents; consisting of: special saw palmetto berry extract, proprietary phytosterol blend including beta sistosterol and other key sterols, pygeum bark, green tea, stinging nettle, and ho shu wu. HLCC™ Scripts Complete provides clinically proven hair thickening vitamins, minerals, and nutraceuticals and has no side effects. This advanced herbal alternative to Propecia (R) inhibits significantly more DHT than other products and is so unique that it is patented.

1. HLCC Scripts Complete blocks DHT; helping to slow hair loss and promoting the conditions to allow better hair growth. Testosterone is converted to Dihydrotestosterone (DHT) by 5 Alpha Reductase (5AR) Enzyme.

2. DHT restricts blood flow to the scalp and follicles. Accumulated in the follicle pores and root, DHT slows or stops nutrients and vitamins necessary for new hair growth and reduces the Anagen hair growth phase...leading to loss and thinning.

3. HLCC Sripits Complete harmlessly binds to Androgen Receptors on your hair and stops DHT from binding to hair follicles and shrinking/killing your hair. With less DHT binding to your Androgen Receptors, your hair starts to grow and resumes the normal cycle of hair growth.

23+ Years in the making!

This product was developed by our team of physicians and medical personnel consisting of a Trichologist, a medical technologist and nurse, as well as one of the World's Largest Nutritional Companies and a large International Hair Loss and Hair Care Manufacturer. In addition, this product is based on hundreds of national and international clinical studies and thousands of our patients in the USA and Europe. Working with all this information we blended one product that has all the best DHT fighting (inhibiting) ingredients and the best essential vitamins, minerals and nutraceuticals for hair health. We then added the key ingredients of a popular hair nutritional which has been proven in numerous studies. No other product comes even close!

1. Special Saw palmetto berry extract and proprietary phytosterol blend - Saw palmetto has been proven to inhibit DHT and our product contains the highest level of sterols available in any tablet! 500 MG of saw palmetto berry extract is used in our product. Most other products provide only 200 mg of some kind of saw palmetto. Most products don't even mention how much sterols they use (cheaper saw palmetto berry extract is sold with 1/5th the sterols of our product). This DHT fighting blend makes up a large portion of our 690 MG proprietary blend of which beta sosterol is the largest ingredient. The blend also includes the other DHT fighting sterols: campesterol, sitostanol, and campesteranol. Sterols/phytosterol has been shown to be the reason Saw palmetto inhibits DHT and works as well as it does.
2. Other potent DHT Fighters including pygeum bark, green tea, stinging nettle, and ho shu wu. All have been clinically shown to help fight DHT and work in synergy. Ho Shu Wu, also known as fo ti root or Shen Min, has been used in China for thousands of years.
3. Marine Concentrate (Shark cartilage and Glucosamine sulfate and Silica). This Viviscal like blend has been shown in 8 European studies to help stop loss and regrow hair, especially in conjunction with Laser treatments. People with shellfish allergies should not take this product and should instead take our AA Plus alternative.
4. HLCC™ Scripts Complete Hair Nutritional - Complete provides all the essential vitamins, minerals & nutraceuticals for complete hair health, including: biotin, folate, pantothenic acid, sulfur, zinc, iodine selenium, copper, manganese, and more.
5. Grape Seed Extract - increases blood flow to the dermal papilla (where your hair grows from) like Minoxidil without side effects.

PATENTED, SAFE and insured to be FDA compliant. This product is so unique it's patented and has other patents pending. By working with one of the largest nutritional companies, all FDA regulations for labeling have been met and this further assures the safety and quality of this product. To fully ensure the quality of our product, we work only with a company that meets the highest industry standards, namely: achieving an "A Rating" by the National Nutritional Foods Association (NNFA) and Kosher certification by all major authorities. The company is a fully compliant GMP manufacturing and packaging facility and is duly licensed and regularly inspected by State and Federal health authorities.

| Item | HLCC™ Scripts Complete | Finasteride / PropeciaR |

| Viviscal Active Ingredients | YES | NO |
| Proven in Numerous US studies C | YES | YES |
| Proven in Numerous European studies C | YES | YES |

AA Plus™

AA Plus is very similar to Complete as a proven DHT inhibitor, but it is for vegans and those allergic to shellfish. AA Plus fights DHT with an advanced formulation of anti-androgenic (DHT blocking) agents. AA Plus provides clinically proven growth vitamins, minerals, and nutraceuticals. It has no side effects and is safe for men and women.

How it works:

AA PLUS works by inhibiting DHT, which is the most common cause of hair loss in men and women. Similar to HLCC Scripts Complete, AA Plus contains an unsurpassed formulation of anti-androgenic (DHT inhibiting) agents, essential vitamins, minerals.

Ingredients:

AA Plus consists of special saw palmetto berry extract, proprietary phytosterol blend including beta-sitosterol and other sterols, Shen Men/fo ti root/wo shu woo, pygeum bark extract, green tea leaf extract, stinging nettle leaf extract, grape seed extract, biotin, vitamin B6, folate, iodine, selenium, copper and manganese.

How AA Plus Compares to Complete:

AA Plus contains nearly the same active ingredients of Complete, but leaves out the marine concentrate, for those with shellfish allergies, and zinc, for the few people it causes stomach upset, when taken on an empty stomach (like most multivitamins).

Scalp Therapy

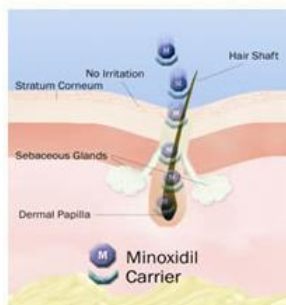

What is HLCC™ Scripts Scalp Therapy?

HLCC™ Scalp Therapy is a solution for your scalp which breaks up and dissolves sebum, a buildup on your scalp which clogs hair follicles causing the hair to die and also blocks the topical penetration of Minoxidil. After Scalp Therapy has hydrated the outer layer and dissolved the sebum, Minoxidil in carrier solution or Maximum Growth Therapy will penetrate down to the dermal papilla. Remember, Minoxidil and Maximum Growth Therapy only works at the dermal papilla level, not on the scalp, so if it can't penetrate it can't work to re-grow hair.

How does Scalp Therapy Work?

HLCC™ Scripts Scalp Therapy revitalizes your scalp by making it clean and removing excessive sebum oils and debris that can block the follicle, restricting new fragile hair from coming through the scalp. Scalp Therapy is scientifically proven and laboratory tested to work beneath the scalp surface to increase nutrient and blood flow in the root area and help dissolve excess sebum; thus creating an environment for maximum hair growth. Scalp Therapy significantly aids in the penetration of Minoxidil or HLCC™ Scripts Maximum Growth Therapy and other Topicals helping them penetrate and work to their fullest.

Directions for Using Scalp Therapy

Shake well before using. Apply 10 - 12 drops on the scalp and massage gently with fingertips into treatment area. Wait 5-10 minutes and then apply HLCC Shampoo.

- ✦ Dissolves scalp sebum build-up
- ✦ Soothes dry irritated scalp & stops itching
- ✦ Helps aid in Minoxidil and Topical penetration
- ✦ Provides high concentrations of hair strengthening vitamins

HLCC Scripts DHT Inhibiting-Bio-Therapy Shampoo

Our commitment to creating the finest hair care products is matched only by our concern for our clients. That's why HLCC TM Scripts Shampoo Cleanser is the perfect choice for those who want to create thicker, fuller, great looking hair, safely and without risk. Unlike almost all other commonly used hair and scalp cleansing products, HLCC TM Scripts Shampoo has been scientifically formulated without DEA and SLS as part of its active ingredients.

What Makes HLCC Scripts DHT Inhibiting-Bio-Therapy Shampoo so Good?

- No DEA and SLS which were originally Engine Degreasers that strip hair of natural oils.
- It doesn't take a rocket scientist to see that DEA & SLS cause irritation of the hair follicles.
- Laser Treatment - SLS blocks up to 10% of laser light by reflecting light when it coats the hair.
- 11 DHT Inhibitors!

Have you been shampooing with dishwashing detergent?

98% of over the counter shampoos contain DEA/MEA and/or Sodium or Aluminum Laureth Sulfate (SLS) derivatives. These were designed as Engine Degreasers, they do a great job of stripping dirt and almost all your natural oils your hair needs. They have even been shown to cause irritation in your hair follicle for up to a week in clinical studies. If your hair is having trouble growing in the first place, it doesn't take a rocket scientist to figure out that irritating your hair follicle every day probably is not going to help! Several other clinical studies have also shown that DEA and/or sodium laureth sulfate derivatives reflect away Laser light and lessen the positive effects of Laser light therapy. In light of recent research regarding the safety of DEA and SLS, we offer this healthy alternative - a blend of mild, non-irritating cleansing agents with water-soluble polymers that provides moisture and added shine to the hair but without harsh and potentially damaging chemical additives. Because HLCC™ Scripts Shampoo is a cleanser so gentle, it can be used every day. Its unique formula effectively removes undesirable scalp residue and build-up while simultaneously providing strength, moisture and shine to the hair.

No DEA and SLS - What is DEA and SLS?

DEA is diethanolamine, a chemical that is used as a wetting agent in shampoos, lotions, creams and other cosmetics. DEA is used widely because it provides a rich lather in shampoos and keeps a favorable consistency in lotions and creams. DEA by itself is not harmful but while sitting on the store shelves or in your cabinet at home, DEA can react with other ingredients in the cosmetic formula to form an extremely potent carcinogen called nitrosodiethanolamine (NDEA). NDEA is readily absorbed through the skin and has been linked with stomach, esophagus, liver and bladder cancers.

Sodium Lauryl/Laureth Sulfate is used to break down the surface tension in water and is found not only in shampoos but also in soaps, detergents, hand creams, cleaners, mouthwash and toothpaste. SLS is known to cause skin inflammation and may mimic estrogens, cause hair loss and damage teeth. It is a mutagen and a potential carcinogen. SLS can be stored in the liver, heart, lungs and brain. It can also damage the eyes.

11 DHT inhibitors

- ✦ Saw Palmetto
- ✦ Beta Sitosterol
- ✦ Pygeum Bark Extract
- ✦ Stinging Nettles Extract
- ✦ Alpha Linolenic Acid
- ✦ Gamma Linolenic Acid
- ✦ Linseed Extract
- ✦ Borage Oil
- ✦ Green Tea Extract
- ✦ Pumpkin Seed Extract
- ✦ Evening Primrose Extract

DIRECTIONS: Thoroughly wet hair and scalp. Apply a small amount of shampoo, massage gently and rinse thoroughly. Repeat if desired.

OTHER INGREDIENTS: Deionized Water, Cocoamidopropyl, Betaine, Cocodiethanolamide, C-14-16, Sulfonate, Stearamide DIBA Stearate, Polyquaternium 11, Silk Amino Acids, Propylene Glycol, Methylparaben, Propylparaben, Peg-75 Lanolin Citric Acid, Tetrasodium EDTA and Fragrance.

SLS & DEA Free Shampoo

HLCC Scripts Shampoo gentle original formula has been scientifically formulated without DEA/MEA (DEA has cancer questions)LINK and/or Sodium or Aluminum laurel sulfate (SLS) derivatives, as part of the active ingredients, unlike almost all other commonly used hair and scalp cleansing products. In light of recent research regarding the safety of DEA and SLS, we offer this healthy alternative - a blend of mild, non-irritating cleansing agents with water soluble polymers that provides moisture and added shine to hair, but without harsh and potentially damaging chemical additives. Because this shampoo is so gentle, it can be used everyday. Its unique formula effectively removes undesirable scalp residue and build-up while simultaneously providing strength, moisture and shine to the hair.

Vitamin Plus Conditioning Treatment

Vitamin Plus Conditioning Treatment restores moisture to your hair and scalp, through its action as a moisturizer and conditioner.

- ✦ 25+ essential vitamins & minerals to enrich your hair
- ✦ Moisture balanced to replenish dry, stressed hair
- ✦ Energizes & Protects the hair from harsh styling products
- ✦ Adds fullness, thickness and shine to all hair types

Hair is composed primarily of proteins (88%). These proteins are a hard fibrous type known as keratin. It is important to explain that we added Protein, Vitamins and Minerals to enrich and reconstruct damaged hair

Our cleansing and conditioning products are developed to be gentle and more effective with a Multi-Therapeutic approach.

- ✦ Vitamin Plus Conditioning Treatment enriches your hair with moisture and over 25 essential vitamins, minerals and amino acids.
- ✦ This Conditioner restores, energizes and moisturizes your hair and scalp through infusing the hair with all the essential amino acids, vitamins and minerals that your hair needs.
- ✦ Replenishes dry, stressed hair with moisture and helps to energize and protect your hair from harsh chemical treatments, styling heat, etc.
- ✦ The only product on the market with over 25 essential vitamins, minerals and amino acids, the essential building blocks of thicker, healthier hair.
- ✦ Compare - Better product but in the same general class

Directions

Evenly distribute the conditioning agent in the hair, leave in for 3-5 minutes and thoroughly rinse with warm water. Gentle enough for everyday use.

SPECIAL TIP: May be used longer as a Conditioning Mask for up to 10-30 minutes. Longer time left on the hair will make for even better results.

Other Ingredients: Deionized Water, Stearalkonium Chloride, Glycerin, Safflower Oil, Hydrolyzed Wheat Protein, Cetearth-5, Hexdecanol, Panthenol, Allantoin, Cysteine, Cystine, Methylparaben, Propylparaben, Fragrance.

Contains these Amino Acids & Minerals:

| | | | | | |
|----------------------|-----------------|------------------|------------------|------------------|-----------------|
| Aspartic acid | Cysteine | Cystine | Lysine | Lysinone | recucine |
| Tyrosine | Valine | Histidine | Threonine | Desmosine | |
| Isoleucine | Proline | Serine | Glycine | Alanine | |

5% Minoxidil with 5% Saw Palmetto™

For years, HLCC clients have found that moving from 5% Minoxidil in Carrier to 5% Minoxidil w/ 5% Saw Palmetto provides much better results. Formerly, this product required a prescription and was only available through our Doctors. HLCC proudly announces that this unique product is now available without a prescription.

What Hinders Minoxidil from Working Well?

Sebum from sebaceous gland blocks the hair follicle. Minoxidil therefore, cannot penetrate through the sebum as easily to get to the dermal papilla (where hair growth occurs).

Minoxidil / Rogaine (which can contain up to 70% alcohol) stays on the surface causing, in many cases, irritation and itching of the scalp and drying of the hair shaft. Minoxidil works at the dermal papilla, not on the scalp surface.

Limited Penetration = Limited Results!

How Did We Improve Minoxidil?

HLCC Scalp Therapy breaks up and dissolves sebum - After Dexpanthenol has hydrated the outer layer and dissolved the sebum, Minoxidil in carrier solution penetrates down to the dermal papilla.

Remember, Minoxidil only works at the dermal papilla level, not on the scalp, so if it can't penetrate it can't work to re-grow hair.

Carrier Solution is a product which neutralizes the alcohol and propylene glycol in Minoxidil, while maintaining it in a liquid state, allowing for better penetration, less irritation, and dryness of the scalp. Use of the carrier lotion allows you to use less Minoxidil to achieve a larger effective dosage level by converting it into a lotion that is more easily absorbed.

Because of the improved delivery system, the amount of Minoxidil needed was significantly reduced (by 50%) to 1ml daily. This is a wonderful product for helping to give you the appearance of thicker, fuller looking hair. This product has not been evaluated by the FDA and is not intended to diagnose, treat, cure, mitigate or prevent any disease or illness and is for cosmetic purposes only.

5 Ways We Improved Minoxidil

- ✦ Dropper applies directly to the scalp not hair
- ✦ Scalp Therapy provides much better penetration
- ✦ Carrier reduces common irritation by reducing Alcohol and Propylene Glycol
- ✦ Carrier helps penetrate the hair follicle
- ✦ 1 time a day not 2 for better compliance & great morning hair

What hinders other Minoxidil formulas from working well?

- ✦ Sebum from sebaceous gland blocks the hair follicle. Maximum Hair Growth Therapy (MGT) & Minoxidil therefore, cannot penetrate through the sebum as easily to get to the dermal papilla, where hair growth occurs
- ✦ Minoxidil / Rogaine and other Topicals (which can contain up to 70% alcohol) stays on the surface causing, in many cases, irritation and itching of the scalp and drying of the hair shaft.
- ✦ Minoxidil works at the dermal papilla, not on the scalp surface.

Why we added Saw Palmetto Berry Extract

Saw Palmetto prevents the binding of dihydrotestosterone (DHT) to Androgen Receptors at the base of the hair follicle and therefore, may also be used to prevent hair loss and other undesirable effects of DHT. Herbalists recommend Saw Palmetto as a natural alternative to Propecia, making it an ideal carrier lotion for minoxidil.

Effectiveness and Safety

Numerous double-blind clinical studies on the Saw Palmetto Extract have shown it to be effective in nearly 90% of the patients usually in a period of 4-6 weeks. Detailed toxicity studies from clinical trials indicated the Saw Palmetto Extract is without toxicity or side effects. Minoxidil w/5% Saw Palmetto works better than 5% Minoxidil and even our 5% Minoxidil with Carrier Lotion. Through our experience, many clients, especially females, over time wanted an upgrade from their Minoxidil 5% with Carrier Lotion. HLCC is dedicated to continuous research and product development and we now offer this version.

5% Minoxidil in Carrier Lotion™

HLCC made Minoxidil better by:

- Providing a dropper, for direct application to the scalp not the hair
- Scalp Therapy provides for much better penetration
- Carrier Lotion reduces common irritation by reducing Alcohol and Propylene Glycol
- Carrier helps penetrate the hair follicle
- 1 time a day not 2 for better compliance & great morning hair
- Plus-Higher strength, 10% & 15% Minoxidil + Saw Palmetto provides much better results we have proven in our 115+ clinics

Minoxidil does not dissolve in water - only alcohol and propylene glycol. As the concentration of Minoxidil is increased, so is the amount of alcohol and propylene glycol. To get the benefit of increased strength without irritation, dryness, and itching, Carrier lotion was developed to help neutralize the alcohol in Minoxidil, allowing for better penetration and less irritation and dryness of the scalp.

Carrier lotion is the result of years of research and development. The carrier lotion maintains Minoxidil in a liquid state longer allowing it to penetrate down into the follicle where it will have the maximum effect on the growth of the hair shaft.

Use of the carrier lotion allows you to use less Minoxidil to achieve a larger effective dosage level by converting it into a liquid that is more easily absorbed. Pharmacia & Upjohn Company recommends using 2ml of Minoxidil daily but because of the improved delivery system, the amount of Minoxidil needed was significantly reduced (by 50%) to 1ml daily.

Better Penetration- Scalp Therapy dissolves sebum, allowing for better penetration. Minoxidil only works at the dermal papilla level, not on the scalp, so if it can't penetrate, it can't work.

Less Irritation- Carrier is the product which neutralizes the alcohol in Minoxidil, allowing for better penetration, less irritation and dryness of the scalp.

HLCC has been using Minoxidil/Rogaine since its introduction in the 1980's.

What Hinders Minoxidil from Working Well?

Sebum from sebaceous gland blocks the hair follicle. Minoxidil therefore, cannot penetrate through the sebum as easily to get to the dermal papilla (where hair growth occurs).

Minoxidil / Rogaine (which can contain up to 70% alcohol) stays on the surface causing, in many cases, irritation and itching of the scalp and drying of the hair shaft.

Minoxidil works at the dermal papilla, not on the scalp surface.

Limited Penetration = Limited Results!

How Did We Improve Minoxidil?

HLCC Scalp Therapy breaks up and dissolves sebum - After Dexpanthenol has hydrated the outer layer and dissolved the sebum, Minoxidil in carrier solution penetrates down to the dermal papilla.

Remember, Minoxidil only works at the dermal papilla level, not on the scalp, so if it can't penetrate it can't work to re-grow hair.

Carrier Solution is a product which neutralizes the alcohol and propylene glycol in Minoxidil, while maintaining it in a liquid state, allowing for better penetration, less irritation, and dryness of the scalp. Use of the carrier lotion allows you to use less Minoxidil to achieve a larger effective dosage level by converting it into a lotion that is more easily absorbed.

Because of the improved delivery system, the amount of Minoxidil needed was significantly reduced (by 50%) to 1ml daily. This is a wonderful product for helping give you the appearance of thicker, fuller looking hair. This product has not been evaluated by the FDA and is not intended to diagnose, treat, cure, mitigate or prevent any disease or illness and is for cosmetic purposes only.

Maximum Growth Therapy™

MGT is: A Natural Alternative to Minoxidil

- ✦ Provides 11 Topical DHT Blockers
- ✦ Works in conjunction with HLCC Scalp Therapy
- ✦ Delivers "Hair Growth" nutrients
- ✦ Helps improve circulation to the hair follicles promoting growth

Maximum Growth Therapy (MGT) is a unique formula designed to help stop hair loss using 11 topical DHT blockers and nutrients. MGT is designed to provide the hair with protein building nutrients and B vitamins directly to the hair follicle to help with hair growth. MGT has a proven vasodilator (Biotin) which improves blood flow assisting the vitamins in revitalizing the condition of the hair and scalp. Additionally, it relieves the scalp of dryness and encourages thick healthy hair.

11 DHT Blockers

Saw Palmetto
Beta Sitosterol
Pygeum Bark Extract
Stinging Nettles Extract
Alpha Linolenic Acid
Gamma Linolenic Acid
Linseed Extract
Borage Oil
Green Tea Extract
Pumpkin Seed Extract
Evening Primrose Extract

Additional High Quality Ingredients:

Higher Percentage of Biotin than other products on the market
Higher percentage of Cystine than other products on the market
Higher percentage of Vitamin B3 than other products on the market

What is Biotin?

Biotin is necessary for cell growth, the production of fatty acids, and the metabolism of fats and amino acids. Biotin is also helpful in maintaining a steady blood sugar level. Biotin is often recommended for strengthening hair and nails. Consequently, it is found in many cosmetic and health products for the hair and skin.

A lack of Biotin can contribute to eczema and seborrheic dermatitis in areas of the body other than the scalp. The scaly skin changes that occur in people may be related to poor ability to use biotin. Increasing dietary biotin has been known to improve seborrheic dermatitis in these cases.

Using MGT in Conjunction with HLCC Scalp Therapy

- Start with Scalp Therapy to remove excess sebum and scalp debris
- MGT is used as a Natural Alternative to Minoxidil
- 11 DHT Blockers
- Soothing to the scalp by relieving dryness and irritation

Directions: Apply to a dry scalp and massage gently with your fingertips into the treatment area. Allow to dry.

Coenzyme Growth Therapy 2oz™

Was the first of HLCC's Gentle Growth Serums, it is now Newly Improved Paraben Free Hair Therapy is believed to stimulate production of protein at the follicle level, reduce activity of the sebaceous glands and neutralize the activity of Alpha-Reductase (the enzyme responsible for the transformation of testosterone into Dihydrotestosterone or DHT). This highly concentrated preparation for home treatment contains biotin, Dexpantenol, two vitamins, cysteine, cystine, methionine, saw palmetto, and amino acids which are found in the hair shaft, now with more DHT inhibiting ability! These products have been evaluated by the FDA and are not intended to diagnose, treat, cure, mitigate or prevent any disease or illness and are for cosmetic purposes only.

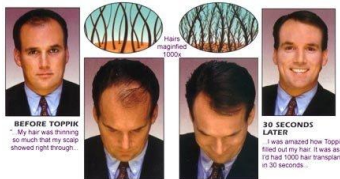

Toppik™

Amazing Hair Building Fibers Eliminate the Appearance of Baldness and Thinning Hair

You apply Toppik by simply holding the custom container over your thinning area, and shaking it gently. In seconds, thousands of tiny color matched hair fibers will intertwine with your own hair. Charged with static electricity, they bond so securely that they will stay in place all day and night, in even the strongest wind or hardest rain.

You'll be amazed how these Hair Building Fibers transform your thin, colorless "vellus" hairs. Suddenly, this "peach fuzz" becomes thick and full before your eyes. In fact, your thinnest, limpest strands of hair will become so thick that even the thinnest areas look full again. This entire transformation takes place in 30 seconds or less.

NOT A COVER-UP

Toppik does not simply create the illusion of thicker hair. By combining your own thinning hair with the Toppik fibers, you will actually see a thicker, fuller head of hair. You'll even be able to style your hair in younger looking ways that you've all but given up on. No expense was spared to make this the most valuable hair product you will ever own. Toppik comes in an elegant, discrete molded container specially designed to dispense the fibers through 167 digitally optimized openings. And Toppik is so easy to apply that after a while you won't even need to look in the mirror when you put it on.

Totally Undetectable!

A SAFE, EFFECTIVE OPTION

Speaking of medical treatments, Toppik is recommended by doctors because it is completely safe and works amazingly well with hair transplants. Starting right after surgery, Toppik will make any scabs or scars completely disappear. It will also eliminate the sight of any temporary post-operative thinning. And if you are still weighing your surgical options, using Toppik will give you more time to make the right choice.

No matter what your condition, if you are concerned about visible hair loss, Toppik will change the way you feel about yourself every time you look in the mirror.

Toppik Applicator and Optimizer™

A sophisticated template that features a patented design, it gives you the most natural results up front by replicating the random growth pattern of nature, and eliminating any straight lines.

Completely redesigned, the Spray Applicator gives you greater control and more even application than shaking. It's great for hairlines and precise areas. And you'll save by using less Toppik while seeing even more natural results.

Couvré™

Dermatologists have used Couvré for years. They recommend it to their patients because it makes transplanted hair look much fuller and is so valuable after surgery.

One of the best things about Couvré is that it's totally compatible with all Spencer Forrest products you might use. Whether you use Minoxidil, Propecia R, or any of the hundreds of hair products on the market, you can be assured of this: Couvré cannot in any way conflict with hair products or treatments, and it cannot block pores or interfere with normal hair growth. It is safe, effective, and proven by medical recommendations for over 20 years.

Available in gray, white, and blond.

About Laser Hair Loss Therapy

Images Unlimited supports technology formulated by the Hair Loss Control Clinic that has helped hundreds of thousands of men and women combat hair loss. Through doctor-directed programs using low level technology, combined with patented formula hair products and nutritionals, men and women all over the world have experienced continued growth successfully.

Being the only company of its kind we are supported by doctors and medically trained staff that have helped hundreds of thousands of people over the past 24+ years. HLCC has trained doctors and affiliates around the world, from England to Malaysia, with more than 160 clinics: worldwide from New York to Europe, Australia, Scandinavia, and even South Africa.

Laser Hair Therapy Studies

The latest Low Level Laser Therapy study released in 2009 at ISHRS (International Society for Hair Restoration Surgeons) showed:

- 100% of the subjects saw an increase in hair growth
- 97% saw an increase in hair count $\geq 20\%$
- 77% saw an increase in hair count $\geq 51\%$

PROVEN 2007 FDA cleared device - laser proven to regrow hair - in a multi-center double blind, sham-device controlled clinical study.

Laser technology works! Contact Images Unlimited today to find the right treatment for your specific hair loss needs. www.information@imagesunlimited.org

Ultimate 25 Laser™

- ✦ 25 True Laser Diodes: The Most in ANY Handheld!
- ✦ Large Laser treatment area = Better coverage than other lasers
- ✦ Long lasting / Battery operated
- ✦ Quality-CE Certified Cosmetic Laser Device
- ✦ Patented in USA & Internationally and now available in the US
- ✦ Light weight for ease of use
- ✦ Cordless convenience
- ✦ 1 year limited warranty

Ultimate II Laser™

- ❖ Dual Technology: Low Level Laser Therapy + LED Stimulating Therapy
- ❖ 5 Laser Diodes 650nm / 5mw
- ❖ 12 - 650nm LEDS Cosmetic Laser Device
- ❖ Greater scalp coverage with a total of 17 light beams
- ❖ Closer contact with hair follicles thanks to transparent laser housing
- ❖ Laser and LED wavelength
- ❖ Light weight for ease of use
- ❖ Cordless convenience
- ❖ 1 year limited warranty

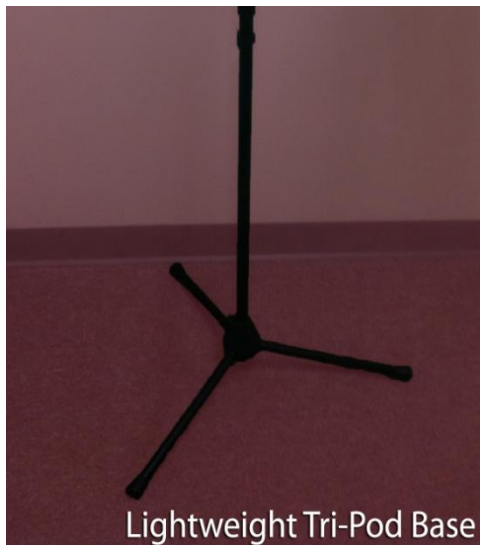

Laser at Home

The Ultimate 75 Laser Diode

Laser Technology dictates the more laser diodes in a unit the better the result in a shorter period of time!

The Ultimate75 Home Clinic I is a lightweight (approx 10lbs), semi portable unit with 75 Laser Diodes, making it equivalent to In Clinic Treatment. It sits upon an adjustable height tripod stand and a clinical, 4 paneled hood.

The Ultimate75 Home Clinic II is a heavier, sturdier and more durable model, weighing in at nearly 70lbs. It too, has 75 laser diodes making it equivalent to In Clinic treatment. It sits upon an adjustable weighted stand and also has the clinical, 4 paneled hood.

With a higher number of laser diodes, it provides clients who comply with HLCC's suggested Multi-Therapeutic Program, a clinically equivalent treatment program that can provide clinic level results.

- Highest number of Laser diodes in an affordable Home Laser Unit on the market today.
- Treatment is equivalent to in Clinic treatment, and can provide the same great results if compliant with the full multi-therapeutic program HLCC offers.

- ✦ Lightweight unit that is easily hid away. Great for those who travel.
- ✦ No more having to fight traffic and busy clinic schedules.
- ✦ Faster results than Laser Combs/Brushes and easier to use
- ✦ Great for the entire family
- ✦ 1 Year Full Manufacturer's Warranty
- ✦ Additional Warranty available at cost
- ✦ Not for commercial Use

The information provided on this web site and any of our literature is intended for informational purposes only and the information provided on this site is designed to support, not replace, the relationship that exists between a patient/site visitor and his/her existing physician. Information and opinions expressed on this web site may be those of the doctors and hair loss professionals who have written them and on the base of their education and experiences and the 24 years of clinical work at the Hair Loss Control Clinic.

The information provided should be examined in the light of individual case evaluation by local doctors. The web site developers, the Hair Loss Control Clinic and its affiliated companies take no responsibility whatsoever of the consequences experienced by the patients who may use the information provided on this web site. The Hair Loss Control Clinic and our 4 doctors and hair loss team assure you of the best possible efforts for those who apply for online treatment. However, please note that we do not claim to cure each and every case, nor do we guarantee any magical cure. The products and the claims made about specific products and treatment program and lasers on this site have not been evaluated by hlcconline.com or the US Food and Drug Administration (FDA) and are not intended to diagnose, treat, cure, mitigate or prevent any disease or illness. Results vary by person. Before using any information or products, you should consult with your physician. It is considered that the user has read and agreed to this disclaimer, when one uses the literature on this site and the online treatment option. HLCC makes no claims any of the laser or products it sells. The US Food & Drug Administration (FDA) clearance for the medical laser device, the HairMax LaserCombs is now clinically proven to promote hair growth in males with androgenetic alopecia (Norwood IIA to V with Fitzpatrick skin types I to IV) To view FDA's public record of this clearance visit www.fda.gov/cdrh/pdf6/K060305.pdf. * The only Clear hair loss laser for women is the MEP-90 see its clearance at http://www.accessdata.fda.gov/cdrh_docs/pdf9/K091496.pdf. The FDA's approves drugs such as Minoxidil and gives clearance for devices such as the HairMax LaserComb, we sell programs that include both those products and other FDA approved drugs in our programs. Although proven in 140+ clinics worldwide none of our programs are themselves approved by the FDA (do to the high cost to do it) only the individual items within those program maybe. Should you find a mistake on this site or elsewhere where it refers to a program with laser or that a laser was approved by the FDA it is in error and should read a laser that with FDA Clearance not approved and again refers only to laser mentioned above. The only version of Minoxidil approved by the FDA to grow hair is Rogaine and its exact generic equivalents. HLCC sells both exact generic equivalents and most often other formulas not tested by the FDA for hair growth. We have found these products to be effective in our clinics. Affiliate program, distributors sales available worldwide other than Greater Capital District NY and California were we have our own clinics. See your Hair Loss consultant for further details of specials.

Further Laser Disclaimer All lasers sold or shown on this site are for cosmetic use only and are not medical devices and are not sold as anything but cosmetic devices for which we make no

claim. No product or laser on this site has been tested or approved for use on minors or persons under the age of 18. All products and lasers sold on this site are not intended for use on minors or persons under the age of 18.

Further Hair Regrowth and Stopping Hair Loss DisclaimerAll HLCC clinics or affiliated clinics offer hair loss treatment program and laser hair loss treatment programs that can include Rogaine, generic 5% Minoxidil, Propecia and the HairMax Laser comb each proven to re-grow hair and stop hair loss. All mentions of Hair growth, stopping Hair loss and anything other than changing the appearance of hair to appear fuller, thicker and healthier looking are related only to the programs that include those products. All other products' are cosmetic and don't not claim to re-grow hair and stop hair loss. To be clear it does not matter how effective or for that matter ineffective a product is if it not Cleared as a medical device (like the MEP-90 and Hairmax Lasercomb, or FDA approved Like 5% Minoxidil or Propecia) it is cosmetic and we don't and not one can claim it can change the body and is not intended to diagnose, treat, cure, mitigate or prevent any disease or illness.

Product Exchanges or Returns

All products from Images Unlimited come with our promise of truthful answers to your questions, not false promises. We give you the best product or products for your individual needs, not one product fits all. Just like your doctor you're evaluated and products are added and/or subtracted, based on your response, budget and individual goals (hair loss). Our return policy is like that of your doctor and we generally don't accept returns. If you are not satisfied with the results you are seeing just call and our professional staff can adjust your treatment program, as we are committed to having happy customers. In some cases, we may at our discretion take back unopened products or make exchanges.

Shipping and Handling Information

Images Unlimited uses United States Postal Service (USPS) Priority and Ground.

You will be given the opportunity to select your shipping preference and verify the cost during the check-out process and before payment. Address any shipping issues to shippingsupport@imagesunlimited.org.
