

Product Exchanges or Returns

All products from The Hair Loss Control Clinic come with our promise of truthful answers to your questions, not false promises. We give you the best product or products for your individual needs not one product fits all. Just like your doctor you're evaluated and products are added and/or subtracted, based on your response, budget and individual goals (hair loss). Our return policy is like that of your doctor and we generally don't accept returns. If you are not satisfied with the results you are seeing just call and our professional staff can adjust your treatment program, as we are committed to having happy customers. In some cases, we may at our discretion take back unopened products or make exchanges.
